

Giuseppe M. Peretti, M.D.

Giuseppe Peretti received his M.D. degree by the University of Milan and completed the Residency Program in Orthopaedic and Traumatology in the same University. He spent several years at the Massachusetts General Hospital, Harvard Medical School, Boston, USA, where he accomplished numerous research activities on basic science in orthopaedics. He is currently Full Professor and Chief of the Residency Program in Orthopaedics and Traumatology at the University of Milan. Head of the Equipe of Regenerative and Reconstructive Orthopaedics ("EUORR"); Head of the Regenerative Medicine and Biomaterials Laboratory by the IRCCS Istituto Ortopedico Galeazzi, Milan, Italy; Past-President of the scientific committee of the Italian Society of Knee, Arthroscopy, Upper Limb, Sports, Cartilage, Orthopaedic Technologies (SIAGASCOT); Member of the executive Board of SICOOP (Italian Society of Accredited Private Hospital Orthopaedic Surgeons); Former President of the Cartilage Commission of the European Society of Sports Traumatology Knee Surgery and Arthroscopy (ESSKA); former President of the Research Committee of the Italian Society of the Knee, Arthroscopy, Sports, Cartilage, Orthopaedic Technologies (SIGASCOT); former President of the Endorsement Committee of Tissue Engineering and Regenerative Medicine International Society (TERMIS). In his career he obtained 19 national and international awards for his scientific activity and achieved more than 35 grants or contributions for research as PI or Co-Investigator. His principal research interest includes the study of strategies of regenerative medicine and tissue engineering for the repair of articular and meniscal cartilage, of osteochondral and bone tissue. His scientific production includes more than 600 publications, including more than 180 papers on peer reviewed journals with impact factor.
