Eugenio Guglielmelli is Full Professor of Bioengineering at Università Campus Bio-Medico di Roma where he founded the Research Unit of Biomedical Robotics and Biomicrosystems in 2004 and since 2013 he serves as Prorector for Research and Director of the Integrated Research Center (50+ Research Units, 400+ researchers). His main research interests are on human-centered design of robotic systems and in their application to healthcare and independent living. He is author/co-author of more than 450 papers published on peer-reviewed international journals, conference proceedings and books, coinventor of 7 patents, co-founder of 4 spin-off companies. He is Senior Member of the IEEE Robotics and Automation Society (RAS), for which he served as Vice-President for Publication Activities, and in many other roles over the last 25 years for which he received the IEEE RAS 2020 Distinguished Service Award. He is the Founding Editor in Chief of the Springer Series on Biosystems and Biorobotics. He is a member of the Board of Directors of the EBRAINS AISBL (co-ordinator of the Human Brain Flagship Project), of the Evaluation Board of the Federation of Scuola IUSS Pavia, Scuola Normale Superiore and Scuola Superiore Sant'anna of Pisa. He is member of the Steering Committee of the Italian National Ph.D. Programme on Artificial Intelligence, and Coordinator of the PhD Course of Artificial Intelligence - Area Health and Life Sciences. From July 2021, he also serves in the role of Scientific Director of IRCCS Foundation Don Carlo Gnocchi Onlus, a research and clinical entity focused on rehabilitative medicine.

Rome, August 31, 2021

A handwritten signature in black ink, appearing to read 'E. Guglielmelli'. The signature is written in a cursive, fluid style.
